MEDICAL TOURISM

THE WCMT HEALTHCARE FOUNDATION

is dedicated to enhancing the quality of human life, recognizing that patient care is just one facet of our broader mission.

MISSION STATEMENT

At the heart of the WCMT Healthcare Foundation lies an unwavering commitment to promoting health and well-being. We aim to create a positive impact on all the diverse communities we serve, including children, individuals with disabilities, and the elderly. Our goal is to instill reassurance and confidence in our stakeholders, fostering environment where everyone feels supported and empowered.

We realize this mission through our proactive approach, providing strong leadership, dedicated service, and essential financial support to effective nonprofit organizations. These organizations work tirelessly both independently and collaboratively, amplifying our shared vision for healthier communities.

CARING FOR THE COMMUNITY

At WCMT Healthcare, caregiving is part of our core values, which is why our colleagues are actively involved in supporting our local community. Each year, WCMT Healthcare allows its corporate colleagues to give back in meaningful ways.

Learn

We start by educating ourselves about our community. Each year, WCMT Healthcare takes an active role in supporting local nonprofits. We invite these organizations to our free seminars, events, and conferences, where they can inform and engage our colleagues on important community issues.

Serve

We prioritize both learning and serving. WCMT Healthcare's corporate colleagues receive 24 hours per year (or 12 hours for part-time colleagues) to volunteer at local agencies during regular business hours.

Give

We are committed to investing in our communities. WCMT Healthcare supports colleagues across our organization in providing matching gifts to any 50 nonprofit organization.

Learn

At the WCMT Healthcare Foundation, we recognize that strong leadership is essential for creating healthier communities. We encourage our colleagues to step up and take on leadership roles, as their contributions can make a substantial difference. To support this goal, the WCMT Healthcare Foundation provides training for our colleagues affiliated with WCMT Healthcare to serve on nonprofit boards of directors.

Featuring this month

**PROVIDING GRASSROOTS
SUPPORT AT A
COMMUNITY LEVEL**

Supporting rural communities with health & education projects since 2013.
Formally established in May 2015, after the earthquake.

COMMUNITY IMPACT

- Annual free health camps
- Free cataract operations
- 8 relief missions directly after the 2015 earth quake
- New classroom blocks rebuilt for 17 rural schools post earth quake
- 1 rural health post rebuilt post EQ
- WASH programme for 16 rural government schools- building / renovating toilets & hand washing stations

HEALTH CAMPS

Running health camps in rural Nepal where national healthcare professionals provide free medical services & education to rural communities.

2013 - 2024

17 health camps

10,000+ patients seen

200+ free cataract operations

3,500+ free reading glasses

400+ prescription glasses

WASH Programme

School sanitary support through the implementation of a water, sanitation & health (WASH) programme. Safe water, toilets and hygiene keep children alive and healthy and girls in education longer.

Phase 1

8 schools, 1 outreach health post Construction of 9 hand washing stations Maintenance 1 hand washing station 8 schools & health post - water tanks Tiling & painting of toilets for 6 schools Over 800+ students directly impacted

Phase 2

7 schools - 600 students impacted 6 newly built hand washing stations 1 newly built toilet Water tanks & pipe fittings for 4 schools Toilet maintenance for 1 school

COMPLETED INITIATIVES

POST 2015 EARTHQUAKE

Immediately after the April 2015 earthquake we organised relief missions of essential goods to rural, off the beaten track communities

NEW CLASSROOM BUILDS

After the emergency phase we moved into rebuilding damaged and destroyed classrooms for rural government schools

SCHOOL RENOVATIONS

Working with rural government schools to upgrade their infrastructure to increase the longevity of the buildings and to create a sense of pride in the school
