

Jack Khoueiry, PhD DBMS

Experienced biomedical consultant with over 15 years of success in aligning complex business and technical needs into practical, compliant, and scalable solutions. I specialize in system optimization, business analysis, and the development of innovative strategies for biomedical and healthcare operations

With a decade of hands-on experience in Quality Management Systems (QMS), ISO standards, GMP, and Good Storage & Distribution Practices (GSDP), HACCP and I have a proven track record in regulatory submissions including CE filing and FDA applications. My work supports operational excellence, regulatory compliance, and sustainable quality improvements.

Member of IABS, & certified Quality Lead auditor

Committee Executive – Biomedicine, WCMT
